SUPPORT-SERVICES-ONE

GENBAND SBC/RSM HW Replacement and Repair Services

Support-Services-One is proud to announce that we are ready to provide HW Replacements and Repairs for your EoL GENBAND SBC/RSM servers running on Annapolis and Jarelle servers.

The HW replacement and repaid includes;

HDD Replacements

DIMM Module Replacement

RAID Battery Replacement

Since the Annapolis and Jarelle HWs are EoL and not supported anymore by Ribbon itself, we can migrate your system to a better performing VM version of the system which is cost effective, high performance, flexible and easy to manage. Also, we can include system monitoring services and additional modules with SBC and RSM platforms to make your life easy.

To schedule a meeting and to discuss your requirements please feel free to contact our commercial teams at (24/7):

Email/Skype (Commercial team): commercial.support@supportservices.one
